CODE OF CONDUCT

Annex C

Optional Extras, Special Equipment & Ancillaries Codes

Special Equipment and Ancillaries Code

- Shall mean the code established by ACRISS and listed in this Annex (or as amended from time to time) which identifies the classification of additional items of equipment which may be provided with the rental vehicle at the request of the Consumer.

- Optional Extras, Special Equipment and ancillaries' codes can be requested using the **/SQ-** field or another designated field used by the GDSs and travel technology providers. It is important however to check the location policy to view availability of codes for the location requested.

- Codes with a * are not described as Special Equipment but Optional Extras/Ancillaries and might not be supported by all GDSs.

- Car Rental companies can use customised functionality provided by the GDSs to implement and distribute any other ancillary code (providing it is not already used by ACRISS).
